

## A collection of biohazard cleanup supplies. In the center is a white box labeled 'Blood &amp; Body Fluid Cleanup Kit' with a red biohazard symbol. To the left of the box is a white instruction sheet. In front of the box are several items: a blue surgical mask, a white face shield, a pair of red nitrile gloves, a pair of blue nitrile gloves, and two red-handled tweezers. To the right of the box is an orange plastic container and several white packets of disinfectant. The entire set of supplies is arranged on a white background.

## Features

- Safe and sanitary removal of spilled bodily fluids, blood and other potentially infectious substances
- Complies with OSHA Bloodborne Pathogen Rule 29 CFR 1910.1030
